

Product Change Notification (PCN)

October 3, 2022

Dear Customer,

In the global shortage of materials, we are looking for stable supply to ensure the smooth supply of our products.

This letter serves as a formal product change notification (PCN) for PICO-PI-IMX8M-MINI & PICO-PI-IMX8M.

Product Change

1. Change ETHERNET LAN PHY to Realtek.
2. Change CSI CAMERA connector x2 to 70pin connector.

Hardware Changes to migrate to the new revision product

Baseboard: New product is identified as REV D

Software Changes to migrate to the new Revision Product

The latest software release and patches support the Realtek Ethernet chip and customer will have to update the latest software patches in order to have ethernet functionality. All patches are available on our download location : <https://developer.technexion.com/docs/software-migration-for-products-with-realtek-phy>

Have questions?

Please contact with your TechNexion Representative for assistance with smooth transition to next generation products. Samples of the new part numbers are available in mass production.

Sincerely,

Bruce Hung
Product Manager
