## GMSL2 Frame Grabbers

The ease of usage, benefits and integration of a GMSL camera in embedded systems is often made complex by the lack of GMSL ports and connectors on the system. For those scenarios TechNexion developed a range of framegrabbers that easily plug into a USB port and extend the system with 1 to 4 GMSL interconnects.

### 1-4 Port

Connect up-to 4 GMSL cameras to a single USB port on your x86 or Arm based system.

### Software

Linux and Windows systems are supported.

### UVC Compliant

Fully plug-n-play in Windows and Linux embedded systems.

### VizionViewer™

Easy to use software utility providing you with granular camera settings control.

### Autodetect

Zero configuration required to detect any specific TechNexion GMSL camera by the framegrabber.

### VizionSDK

Hardcode and control your cameras with C# and Python code.
